PROFESSIONAL SUMMARY

Results-driven **Senior GoLang Developer** with over 5+ years of experience in backend development and a proven track record of architecting, building, and deploying scalable **RESTful APIs**. Proficient in **GoLang**, Laravel, and C#, with hands-on experience in **Docker**, **AWS**, and **GCP**. Seeking to leverage expertise in cloud-native development and system architecture to lead innovative projects.

PROFESSIONAL EXPERIENCE

Software Developer & Product Manager | Berner Software | May 2023 - Mar 2026

- Engineered and deployed end-to-end backend systems for multiple projects (e.g., Uexcess, Hosaputa), with a primary focus on **GoLang**.
- Designed and implemented scalable database schemas and maintained data integrity using **AWS RDS**.
- Architected and built comprehensive **RESTful APIs**, managing all aspects of the backend development as the sole developer.
- Containerized applications using **Docker** and hosted backend services on **Google Cloud Platform (GCP)** and **AWS**.
- Served as Product Manager, overseeing project lifecycles from architectural design to final deployment.

Team Lead | Inode Technologies | Dec 2021 - May 2023

- Led a team of software developers in building custom ERP solutions using C#/.NET and PHP, from concept to delivery.
- Mentored and provided technical guidance to junior developers, ensuring high-quality code standards through reviews and collaboration.

Senior Software Engineer | Inode Technologies | Jun 2021 - Dec 2021

- Developed and optimized key backend modules for the core ERP product using C#/.NET and PHP.
- Contributed to architectural decisions to enhance system performance and scalability.

Software Engineer | Inode Technologies | Jun 2020 - Jun 2021

- Wrote and maintained backend services using PHP CodeIgniter and C#.
- Optimized database performance by writing efficient SQL queries in SQL.
-

EDUCATION

B.E (B.tech) – (*BMS Institute of Technology and Management* | 2015 – 2019)

Technical Skills

- **Programming Languages:** GoLang, PHP, C#, React Native, React Js
- **Web Frameworks:** Echo, Laravel, C# .NET, PHP CodeIgniter
- **Databases:** SQL, MySQL, AWS RDS, MongoDB
- **Cloud & DevOps:** Google Cloud (GCP), Amazon Web Services (AWS), Docker
